STORY

Exclusively for COLOP, Princess Maja von Hohenzollern has created a unique and authentic collection consisting of:

- 1. stamp stories for children with sustainable cork stamps**
- 2. tattoo stamps for animal lovers**
- 3. office stamps, for all office princesses**

She has realised absolutely innovative concept ideas, which are also reflected in the material.

The design and authentic storytelling give the stamps a high level of emotionality and a unique position.

STAMP STORIES

With 'Stamp Stories', Princess Maja von Hohenzollern has developed a completely new concept - **it's the first stamp fairy tale on the market!**

Princess Maja combines sustainable cork stamps with a lovingly told story and incorporates autobiographical parallels from her own life into the product.

The 6 motifs tell the story: 'Save the animals! Princess Maja & Max in action at sea' and thus address current issues such as sustainability, marine conservation, and animal welfare. Princess Maja has specially designed the little princess figures 'Maja' and 'Max' and written the story to go with them.

The stamp set comes with a small book containing the story written personally by Princess Maja von Hohenzollern. The children can creatively stamp and colour in the motifs. This creates their own stamp storybook that parents can use for reading aloud. Another innovation is the material. The stamps are made of cork, a sustainable natural product that feels very good in the hand and is ideal for young children's motor skills. It is also a very allergy-friendly material.

Attractive cardboard packaging with perforated EURO hole flap for hanging.

With the 'Animal Lovers' tattoo stamp set, Princess Maja von Hohenzollern has created a fashion statement for all animal lovers in the world, with which they can show their love for animals on their skin.

All 4 motifs, 'Love all Life', 'Dog Lover', a 'Cat Motif' and the 'Animal Yin Yang', convey a message of love and the peaceful coexistence of humans and animals.

The phrase 'Love all Life' connects people, animals and nature and is a strong peaceful message. The animal Yin Yang symbolises the harmonious coexistence of humans and animals. It is important to Princess Maja to use these unifying messages to set an example of appreciation and love for all living beings that appeals to many people internationally.

TUTORIAL

HERE IS HOW IT WORKS

1 FILL THE INK PAD

Fill the ink pad with about 1/2 of the tube of body ink. Wait about 30 minutes before using the ink pad for the first time, so that the body ink distributes evenly. Always close the ink pad immediately after use.

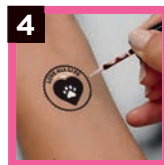

2 CLEAN THE SKIN

Clean the skin before stamping, so that it is as free of grease as possible. For best results, the tattoo should not be placed in skin folds or in places where clothing rubs.

3 STAMP THE TATTOO

Apply the stamp to the skin. Then let the tattoo dry for about 10 seconds.

4 DECORATE AS YOU LIKE

Add additional accents with the tattoo liner.

5 REMOVE THE TATTOO

Wipe the tattoo quickly and easily off with baby oil or make-up remover.
